BID TABULATION SHEET
for
**PREFABRICATED CONCRETE RESTROOM BUILDING, FABRICATION,
DELIVERY AND SETUP FOR SHAWNEE MISSION PARK**

Bid Opening – Tuesday, August 18, 2009 @ 2:00 PM
Shawnee Mission Park Administration Building Boardroom

COMPANY	Base Bid Price (\$)	Days to Complete
CXT Incorporated	99,761.99	90
<i>Superintendent's Estimate</i>	108,830	

Scope: This bid is for a manufactured, non-combustible, concrete restroom building similar to units used by the National Park Service and Kansas Department of Wildlife and Parks. The particular unit being bid is intended to provide a quick and seamless replacement for the existing Shelter #6 restroom in Shawnee Mission Park. Prefabricated, modular concrete restroom buildings provide a more-durable product at a lower cost than typical site construction with an extremely short window for setup. Existing park patrons will not experience a service outage, because the new unit should arrive in time to be set up during the normal winterization period for the existing restroom.

STAFF RECOMMENDATIONS: Staff recommend accepting bid submitted by CXT Inc. as noted above.
