Low Course Experience

Getting to know each other, discovering new things about your co-workers, teambuilding, learning to trust each other, and solving problems are all a part of the low course. You will spend time learning and growing as individuals and as a team. The low course is designed with most elements only about 12 inches off of the ground. You may encounter cables attached to trees, platforms, logs, and swings, as you explore your team's group dynamics, and how to interact and communicate in more productive ways. **Programs available include:** 1/2 day, full day, or portable off-site.

High Course Experience

Once you've experienced the low course and worked on some basic teambuilding you're ready to put your team to the test on the high course. The high experience offers a choice of four different high elements or our 200 ft. zip line. We will build a program designed to your needs and goals. **Programs available:** Full day (Group will begin on the low course)

Hawk's Nest Climbing Tower

Experience high adventure on the new 40 Ft climbing tower. This element offers two different sides for climbing, a dangle-duo, and vertical play pen, depending on the level of difficulty you want. We can also offer rappelling, and a beautiful view of TimberRidge Adventure Center.

Programs available: Full day
(Group will begin on the low course)
