

Official Rules

- Race cars must be constructed from a single carved pumpkin.
- Two independent axles must run through your pumpkin with wheels attached to them.
- Pumpkins may not be attached to a chassis of any kind. i.e. toy truck, skateboard, etc.
- All racers must be pre-registered and paid in full prior to the opening heats.
- No motorized enhancements are allowed.
- All racers must check in at the start line between 9am-9:45am on Race Day 10.17.09 for a full inspection of their racer for compliance.
- Racers found to be in violation of the rules will be allowed to race but will be disqualified from the winning the event.
- In addition to racing pumpkin cars can compete for the following honors:
 - *Best of Show *Biggest Sports Fan *Scariest Racer *Best Animal
 - *Most Creative Recycled Ride *Most Unusual *Favorite Cartoon Character
 - *Most Creative Overall

Tips of the Trade

- Know the rules before you start constructing your pumpkin racer.
- Make sure your wheels spin freely and the front and rear axle are parallel so that racer travels in a straight line.
- Make sure your racer has adequate ground clearance to avoid getting snagged on pavement irregularities.
- Wheels and axles can be purchased at your local hardware store or re-cycled from castaways found in your garage or local thrift store.
- Pull out all the stops and express yourself while creating your racer. Building your car can be as much fun as racing it!
