

Abstract Collection Date Span: 1855-1985

The Abstract Collection at the Johnson County Museum was cataloged and rearranged in 2011. The abstracts were arranged using a hierarchy of location. First they were organized by their city (or township for unincorporated areas*), then put in order by the Public Land Survey System designations of Section, Township and Range, usually abbreviated as S-T-R or 6-15-25. These terms are defined as follows¹:

Section: A one-square-mile block of land, containing 640 acres, or approximately one thirty-sixth of a township. Due to the curvature of the Earth, sections may occasionally be slightly smaller than one square mile.

Township: An approximately 6-mile (9.7 km) square area of land, containing 36 sections. Also, a horizontal row of townships in the PLSS.

Range: A vertical column of townships in the PLSS.

The collection is organized from the largest unit to the smallest; City, then Range, then Township then Section. (i.e. in Aubry Township, 8-15-24 will be placed before 6-15-25).

The distribution of abstracts, per city, is:

Aubry Township	57
De Soto	3
Edgerton	6
Fairway	19
Gardner	39
Leawood	14
Lenexa	112
Lexington Township	2
McCamish Township	3
Merriam	235
Mission	120
Mission Hills	12
Mission Woods	1
Monticello Township	3
Olathe	57
Overland Park	119
Prairie Village	47
Roeland Park	33
Shawnee	29
Spring Hill	16
Westwood	5
Westwood Hills	3
TOTAL	935

A map was designed to provide a visual aid for understanding the abstract collection. On this map, each section in which the museum has at least one abstract has been shaded in, with each city/township represented by a unique color, and the total number of abstracts in the section has been written in the lower right-hand corner of shaded sections. This gives a visual representation of where the abstract collection will need to be improved in

¹ "The Public Land Survey System" http://www.nationalatlas.gov/articles/boundaries/a_plss.html

the future. The shading on the map was done on a mylar overlay on a historic map, so it can be changed as needed.

The abstract collection has been arranged in 48 boxes alphabetically by city name and placed on Shelving Unit 8. A detailed list of Box Numbers, Locations, and Contents can be found below.

Recommendations: All of the abstracts have been cataloged into PastPerfect, however, some have been more completely described than others. It would be good to review the abstracts that were not completely cataloged to retrieve information such as the subdivision and the names of the last owners of the property. It would also be helpful to designate fields in the Custom Screen for the S-T-R designation for each property as well as the name of the Subdivision. All of these steps would increase accessibility and searchability for the abstract collection.

***As city boundary lines will continue to evolve over time, the abstracts have been organized under the ca. 2008 city boundary lines.**
